Ann, Kelly & Steve,

I just received an email from Dave indicating that you would be the ones to look over the attached list...specifically, the "Deliverables" list. The "Full List" is provided for your reference. This information was requested last week of the L/Cs, and we provided a list. However, it was requested that we put the list in a format the IOAA was using...i.e., the "Deliverables" list.

I have indicated to everyone on the original email that I will forward a final to Dotti Miller by early afternoon. SO...if you can do a scan of the "Deliverables" file, getting red flags back to me as soon as possible this morning, I would greatly appreciate it. If you would like to stop by with modifications, that would be fine. I do have a video conference at 8:00 this morning with the NRMRL PLs & TLs for CSS, and a Cumulative Risk Project meeting at 9:00 via audio. (I should be able to multi-task during the Cumulative Risk call!)

Thanks,
 Joe

Attached, you will find two files: 1) ORD Deliverables 2012_wNRMRL.xlsx and 2) Final (20120606) NRMRLProducts (Full List).xlsx.

The first is Dotti's file in the format she is requesting that all the NRMRL deliverables be included. I have taken the second file as a source file...along with additional information on several of the deliverables that has been clarified for me over the last couple of days...and inserted the information in Dotti's file. If you have the opportunity Wednesday morning, I would appreciate your quick scan of the file for any glaring mistakes. If you find anything that needs correcting, please make note of that in the file and highlight the corresponding cells (i.e., yellow, or some other noticeable color), add your name to the file name, and return to me as soon as possible. I will compile and finalize, and re-submit to Dotti by early afternoon on Wednesday.

Thanks,
Joe

Hi Annette,
Here is the document I am trying to incorporate NRMRL's information into.
Thanks
